

## Peer Evaluation for A2: Rockonomix - Fall 2014

	<b>100%</b>
--	-------------

The overall grade for the Rockonomix Music Video Project (A2) is graded by the course instructor. Individual grades will be adjusted based upon the evaluation of your peers combined with your instructor's evaluation of your individual contribution to the project.

An effective group project requires active participation in the assignment by each group member. This includes being available and engaged at group meetings, completing and reviewing the finished product, and posting your finished project for the class.

You must evaluate each group member, including yourself, based upon the requirements of the assignment. Please complete the evaluation with honesty and fairness. Your comments will help determine the final grade for each team member.

Please note: Failure to complete the survey and/or turning in an incomplete survey will result in points off on your own individual grade. Please read over the instructions carefully for each question.
